ENVIRONMENTAL AND SAFETY CONSULTANTS

**COMPANY PROFILE**

## ABOUT US

Virotek (Pty) Ltd. is a young, passionate and dynamic environmental and safety consultancy.

At our very core we strive to provide sustainable and fully compliant business environments and workplaces that enables your businesses to flourish. We specialise in providing customised on-site environmental and safety solutions that combines integrity with innovation, local support with global perspectives and technical expertise with superior project management.

We provide comprehensive, project specific and accurate services that ranges from strategic and practical advice to the deliverance of technical and project specific services. All of which are designed to enable your business's continuous success with the necessary reassurance that all your operations, projects and sites are fully compliant with the national, provincial and local environmental and occupational health and safety legislation and regulations.

## HOW WE DO BUSINESS

Embedded in our foundation is a culture of integrity, professionalism and transparency of the highest standards. We have never and will never compromise our standards.

Together with our trusted partners and clients we achieve success that is mutually beneficial to all stakeholders involved including the natural environment.

Together with our clients we strive to provide practical, and sustainable solutions to challenging issues through a professional, conscientious and innovative approach.

In all our projects we aim to combine technical proficiency in different disciplines with a clear understanding of your businesses' priorities and overall goals. We work flexibly alongside our clients and where necessary we can adapt our options and approaches as circumstances dictate.

## TRUSTED PARTNERS

Infinite Group Quantity Surveying and Project Facilitation is a property and construction consulting firm specialising in financial and project management advisory including but not limited to concept viability studies, project feasibility assessments, project financial control, property valuations, financial dispute resolution and project facilitation.

With a client base stretching across the SADC region, Infinite Group carries a wealth of knowledge and experience and together with Virotek, we can provide specialist, multidisciplinary solutions ranging from strategic advice to the deliverance of technical services.
